Communications are solicited, but the paper will not responsible for the opinions of its cor-respondents.

Any gangue so inclined, can level their faces in contact with this stope; float their eyes ore these lines, and let the country-rock, while they endeavor to blende their ideas with the following whims of the writer. Should they fail in this however, he will not think it their fault, nor feel in the least cross cut about

What is the difference between miner and his wife?

He dons his old shirt to go on shift, while she has to shift to darn his old shirt.

What animal is usually found around mines? The giraffe, as he is always inclined

When is a school boy like timbering a

When he is lagging.

Why is a tool-packer better than s

Because he is so well drilled that he shoulders more steel than any two regu-

What official in a mine represents the most men? The four-man of course.

R. G. 8, FUANACA NOTES.

No. 2. furnace keeps steadily at work No. 1. furnace has had a thorough overhauling and is now ready to start up.

The locomotive has been undergoing repairs, defective flues being the cause.

The track to Jackrabbit has been opened and trains commenced running Tuesday.

The bad roads and inclement weather has caused a falling off in teams seeking him up. bullion freight to Milford.

The heavy storms of the past two weeks have not had as much effect upon

The snow around the works has accumulated considerably by drifting, rendering teaming difficult.

Those having cabins and tents about the works are sympathizing with those who have to foot it to town. Since the opening of the track to

being brought in to the smelters. Anthony Godbe, assayer at the works,

Jackrabbit, the usual amount of ore is

left Sunday for a visit to Zion's capitol. He will be absent about ten days.

Considerable refuse charcoal is now being burnt to fire the boilers in the engine room thereby causing a great sav-

Large quantities of coke are now enroute from Milford, but owing to the condition of the roads, considerable de-

The attendance at the reading room is steadily increasing, and those living in town appreciate its benefits and seek the works long before they go on shift, to spend an hour or two in intellectual en-

Some of our nimrods are agitated over the question of the legality in shooting quail. Several flocks have gathered around the works and visions of quail on toast are continually dancing before their optics. The game law goes into effect

E. T. Colby our contributing editor of Jack Rabbit, was in town Sunday; occupied the editorial chair at the RECORD office all day; donated two sticks of a scissors item and departed. Mr. Colby pronounces the mines of his locality as looking well and leading up to a flash head discovery.

The "Pioche Library Association" will give a musical and literary enter-tainment at Brown's Hall, on Friday evening, the 19th of February. The progam will be published in the next issue of this paper, and will be both amusing and instructive, and it is hoped that the citizens will take an interest and favor it with its patronage, as the Association is laboring with a depleted treasury, which should not be allowed in a community like this, especially when the Library is open to all whether members or not.

IT IS COMMENCING

They Won't Stand It. It is Cortainly Revolting. He had Best Quit.

ED. RECORD. If there is anything in the world that will make a man reel with nauvia, it is to have some other man (whom he deems a fool) tell yarns about himself, his girl conquests and his great masher proclivities; how the girls all jove him; can't help it you know, he is so irresistable etc.

There was a dude of this calibre at a college in York State some years ago when I was there whose fate should be a warning to his class. This party would seize the opportunity the meal hour afforded to tell us of his numerous love the first families of the place were secretly in love with him.

When the boys could stand it no onger, a letter was written him in a young lady's hand, edited by us with words like these

Darling Will: I can no longer keep quiet; my emotional heart beats within my breast with such rapturous tumult at the mere sight of your manly form, that I must speak to you; nay more, I must at some time soon, press my soft lips against those voluptous smackers of yours and feel your warm breath on my cheek, as the words of love I crave are echoed back to me. You know me not, now; but meet at the post office to-night at eight o'clock and we will form some plan by which you can get an introduction into our family. Yours until death Blanche.

Anybody but a fool would have dropped to it; he didn't; he went there and on his return informed us, that she had more than likely been watched too closely, to meet the appointment. Another letter explained her absence satisfactorily and made a new appointment. This time a

SECRET CARRIAGE RIDE was planed; and we kept it for her. At a dark corner in the city, a young man dressed in black was seen by five others walking gallantly toward the carriage, in which they sat; the door was held open by a handsomely dressed young lady, whose side whiskers were hidden by a veil. He stepped up, then fell back, covered from head to foot with ice water and flour, and the carriage turned a

The newspapers got it next morning that some young men had performed the baptism by the request of several young ladies in the city, who had been insulted by his attentions.

He became the echool josh, and had to leave for home. The last accounts we had of him were, that his home papers had just got the news, and were burning

when a young man brags over his love January 21st, which was received by me conquests to other men they will cer the girls on you, or get even some other way. It is a terrible infliction.

Singular sounds are reported as emanating from the cemetery at night and people are beginning to shun the place after dark. It might be the fumes of the smelter being inhaled by the defunct and proving too much for their attenuated corporosity.

Attention is called to the fact that W. D. Williams, proprietor of the William's House, at Milford, is running a first class hotel at that place, and has the best accommodation in that town for the traveling public. The Pioche, and Milford stage runs to the door. .

The friends of C. E. Goodrich will be pleased to learn that he has safely arrived, and is now doing by electric light the little town of Chicago. He has finished New York, Washington and other suburban villages and for the first time since his departure he has called for more dough.

There are rumors affoat that another wedding is on the tapis which will take place the latter end of the present month, or the beginning of next. The cake is in the hands of our best town pastry cook and for size will outshine anything of its kind ever manufactured within the city limits of Pioche. One stipulation with the builder is a guarantee that it is not to be dough this time.

DIED-Henry Sharp of Hiko, after a lingering illness of some months, passed away, Thursday evening at seven o'clock surrounded by two of his daughters and one of his sons. He had been in poor health for six months past and was brought here six weeks ago for medical treatment and the hope that the change would be of benefit. But the Grim Destroyer was around, and although he had every care and attention that loving ones could bestow, he had to answer the summens. His remains were taken to Hiko for interment. He leaves five daughters

and four sons to mourn his lose, "John Chord, the English sailor who recently thrashed a chilean in San Francisco for making insulting remarks about Americans, was convicted of assualt last week, but judgment was suspended for a year, and he was released on his own recognizance." Here too Pete.

LET US ACT.

The spead of Diphtheria Must, if Possible, be Checked. Notes and

The matter has come to a crisis. If there is a point where the citizens of Pioche will draw the line and use quarantine measures to stop the spread of the disease, it is now reached. Two new cases of diphtheria have, through the forethought of druggist John Shier, just seen brought to light. He spoke to the Sheriff his views regarding the illness of Mr. Adelmann's children; the Sheriff acted promptly and took the doctor up at once. An examination of their symptoms proved the children to be suffering from diphtheria. It is nobody's business conquests; how this girl and that girl of that no call for the doctor had been made people certainly have a right to attend their own if it suits them to do wo. But it seems to us that for the protection of the community at large, every case of a questionable character abould be at once reported to some headquarters and it should then become the physician's duty to investigate and prescribe stringent quarantine measures. The discase is now making its first appearance here, and some who seem to know noth ing of its dangerous spreading nature, should otherwise be arrested for crimina

> Dr. Crowder and Father McManus both educated should such matter : they both however overstepped the bounds of reason, when they allowed the funeral of a deceased diph theria patient, in an unsealed casket, to take place from the church, and especially when little children were also in attendance. "Gue" Adelmann has up to the present time continued his relationship with his family, and them come straight down to a butcher shop to handled meat intended for public use. Mrs. Eliza Lawson, the proprietress of the shop, should however share none of the blame, for had she any suspicions of the fact she would never have allowed it to go on. This is just the trouble, nobody will find out until it is too late, unless

something is done as above stated. The President's Message

WASHINGTON, Jan. 28 -Following in the President's message, transmitting with the additional Chilian correspon dence to Congress.

I transmit herewith the additional correspondence between this government and the government of Chile, consisting of the note of Senor Montt, Chilean Minister at this capitol, to Secretary Blaine dated January 23rd; the reply of Blaine thereto of date of January 27th, and a dispatch from Mr. Egan, our Minister at Santiago, transmitting the response of Peirrs, Chilean Minister of Foreign Believe it my young local freind, that affairs, to the note of Secretary Blaine of on the 26th instant. The note of Senor ainly get warm in the collar either tell Montt to Secretary Blaine, though prohibit or regulate by heavy tax dealing da et January 23d, was not delivered at in "features" or "options," known to o'clock M. of the 25th, and not translated and its receipt notified to me until late

in the afternoon of that day. The response of Mr. Pierra to our notof the 21st withdraws with acceptable expressions of regret the offensive note of Matta of the 11th ult. and also the request for the recall of Egan. The treat. ment of the incident of the assault upon the sailors of the Baltimore is so concili atory and friendly that I am of the opinion that there is a good prospect that the difference growing out of that serious affair can now be adjusted upon terms satisfactory to this Government by the usual methods and without special pow-

ers from Congress. This turn in affairs is very gratifying to me, as I am sure it will be to Congress and our people in general. The support of the efforts of the Executive to enforce the just rights of the nation in this matter has given an instructive and useful illustration of the unity and patriotism of our people. Should it be necessary I will again communicate with Con gress upon the subject.

(Signed) BENJ. HARRISON. Washington, Jan. 28th.

An Bistoric Building Burned.

Rridmond (Va.), Feb. 2.-The historic old Appotomax court house building was burned yesterday and all the county records were entirely consumed. The loss of the records leaves the county in bad straits. The McLane house, in which General Lee signed the terms of the surrender to General Grant was at one time threathened with destruction.

Better if He Had.

An old Cumberland farmer, returning home rather late, discovered a yokel with a lantern under his kitchen window who, when asked his business there stated that he had "come a-courting."

"Come a-what?" said the irate farmer "A-courtin sir; I'se courtin Mary." "What do you want the lantern for?I

never used one when I was a young "No, sir," was the reply. I shouldn't think you did, judging by the missee."-

If you want the news subscribe for the Pioche RECORD.

POLITICAL TIPS.

THE CHILIAN EPISODE NOW PRAC-PICALLY CLOSED.

THE COINAGE BILL.

Shortly to be Reported to the House From the Committee on Coinage Charges of Fxtravagance Pefated. Sonator Sherman's Rousing Recep-

Another causus is to be held next Fri-day night by the democrats on the silver question, but from the open manner in which members are declaring that they will not be bound by any caucus decree that is adverse to the will of their constituent it is considered doubtful whether the result of the caucus will in any way affect the final disposition of the free coinage till which will shortly be reported to the House from the committee on Coinage, Weights and Measures.

The democratic members of the Ways and Mrans committee have decided that the tariff policy, so far as the reporting of bills from that committee is concerned shall consist of a number of separate bills but it is said that Mills and those opposed to that method will either appeal a caucus or antagonize the first bill reported to the House by offering as an

mendment a general tariff bill. It is reported that most of the charges of extravagance made against the fiftyfirst congress have been refuted. A striking instance was given upon the floor of the House, when some members made a casual reference to the extravagance of the appropriations made by the Post Office committee of the last House Representative Blount, of Georgie, who is chairman of the present Post Office committee, and has been a member of the same committee through several Congrosses, indignantly denied the charge, and stated positively that all the increases made in appropriations by that committee had been made absolutely necessary by the increasing business and prosperity of the country.

The result of the vicious attack made upon the nomination of Judge Woods, of Indians, to the bench of the new Circuit Court is an expense of about \$500 for mileage paid to witnesses brought from Indiana to testify before Senate Judiciary committee in regard to the political charges brought against Judge Woods. There has been at no time the slightest doubt of his confirmation.

Senator Sherman was given a rousing reception by the Obio republican club of this city, last Friday night.

After a very lively discussion the National Board of Trade, which was in session here last week, passed a resolution against the bill pending in Congress to at . . State Department until after 12 plain people as speculating in the future price of grain, or to put it still plainer betting what the price of grain will be at a given time in the future.

The Chilian episode has now practically closed. Saturday Secretary Blaine instructed Minister Egan to inform the Chilian Government that its answer to the President's ultimatum was satisfactory and gratifying to this Government The attempt to again stir up the war feeling which was made by the sensational press by stating that the administration had demanded as an additional humiliation to the Chilian Government that it should salute our flag was entirely without foundation. The President and his advisers in and out of the Cabinet, are too manly to seek to take advantage of a weaker power which has acknowledged its errors and expressed regret for

It is probable that Chili may soon have a new Minister here, as Senor Montt by positive misstatement during the recent segotiations has destroyed his usefullness to his Government, and in all future communications of importance he will be ignored by this Government while he remains here. He will of course, attend the diplomatic dinner to be given at the White House to-morrow night, as the invitation was sent and accepted some weeks ago.

Secretary Foster has returned much improved, and resumed his duties. His physician says he will have to be careful about overworking himself for some

The Indians claim they have had a picnic on the trail to the smelter for several days picking up cold lunch and peacher Some boarding house must have recently been struck with a streak of unusual charity to fill lunch buckets sufficiently to leave a well marked trail for 500 yards.

Died.
